CADET DEVELOPMENT TEAM PURPOSE

The HIWG Cadet Development Team was created in order to provide Cadet Officers an opportunity to further **DEVELOP** their leadership capabilities.

The Cadet Development Team members will **DEVELOP** their leadership capabilities through the planning, coordination, and execution of the monthly Cadet Programs Activities.

In the Cadet Development Team structure, Senior Members provide oversight while Cadet Leaders **DEVELOP** and execute Wing-level Cadet Activities.

CADET DEVELOPMENT TEAM BENEFITS

The Cadets on the Development Team will select other Cadets to **DEVELOP** the classes and manage the set up and break down of the event. This strengthens our Cadets by nurturing the development of public speaking and small group management skills.

Students at each Wing-level activity benefit from 9 units coming together to learn, grow, and **DEVELOP** as a team and to create meaningful relationships with one another.

CADET DEVELOPMENT TEAM BOUNDARIES

Cadet Development Team Members have the added leadership challenge of managing their workloads and make contributions to both their unit and the Wing.

Cadet Development Team Members are separate from the members of the Cadet Advisory Council (CAC) in order to allow more Cadets the opportunity to serve at the Wing level.

The Cadet Development Team is not responsible for the planning and execution of Encampment. Members are allowed to apply for Encampment Cadre positions.

CADET DEVELOPMENT TEAM CHAIN OF COMMAND

The members of the Cadet Development Team will report directly to the Cadet Leadership Officer who then reports to the Senior Member Cadet Programs Staff. Mission Directors do not fall into the Chain of Command for Cadet Programs activities. However Mission Directors will be consulted as subject matter experts to provide essential educational contributions to activities themed after respective area. Please refer to the right side of this slide for a complete Chain of Command for Cadet Programs Activities.
